INTERNATIONAL CONFERENCE ON EMERGING TRENDS IN ENGINEERING AND TECHNOLOGY (ICETET)-2025

The International Conference on Emerging Trends in Engineering and Technology (ICETET) is a premier forum for researchers, engineers, and technologists to share their latest findings and advancements in various fields of engineering and technology.

Objective

- To provide a platform for exchanging ideas and knowledge among researchers and practitioners
- To facilitate collaboration and networking among experts from academia and industry
- To showcase innovative solutions and emerging trends in engineering and technology

Scope

ICETET covers a broad range of topics, including but not limited to:

- Artificial Intelligence and Machine Learning
- Internet of Things (IoT) and Cyber-Physical Systems
- Data Science and Analytics
- Robotics and Autonomous Systems
- Renewable Energy and Sustainability
- Advanced Materials and Manufacturing
- Computer Vision and Image Processing

Benefits of Attending

- Learn from renowned experts and researchers in the field
- Present and showcase your research to a global audience
- Network and collaborate with peers and industry professionals
- Stay updated on the latest advancements and emerging trends
- Access to conference proceedings and publications

Submission Guidelines

- Authors can submit their original research papers, case studies, or review articles
- Submissions should be in IEEE format and within the specified page limits
- Papers will undergo a blind peer-review process

Conference Outcomes

- Accepted papers will be published in the conference proceedings
- Selected papers may be considered for publication in special issues of reputable journals
- Awards for best papers, presentations, and posters

Please note that the specific details may vary depending on the conference edition and organizers. Always check the official conference website for the most up-to-date information.

About AIRA

Advaita Innovative Research Association is a public non-profit organization without any commercial motive. AIRA is a registered scientific academic body and publishers established in 2010 and have been publishing cutting-edge research papers in the fields of Engineering, Technology, Education, Medicine, Health, Management, and Humanities. AIRA Journals are academic, free, open access and peer reviewed to publish original scientific research works for wide circulation among the scholastic fraternity.

- To promote research collaboration and to foster development among the members.
- To provide support to students and research scholars in acquiring the updated information in their fields of study by organizing seminars/ conferences/ workshops/ training programs/ extension lectures in India and abroad.
- To organize social, cultural and educational programs / activities in online and offline mode for developing national integrity and spreading the philosophy of universal family.
- To publish books, charts, illustrations, journals, magazines, periodicals, newspapers and other publications in various facets of human knowledge and creativity in different languages.
- To provide adequate support to the youth to enable them to undertake and disseminate research works/projects. Supporting them to update their content and skills by participating in conferences and workshops to become global citizens with Indian values and International standards.
- To disseminate research outputs that is acceptable scientifically and ethically by the stalwarts in concerned areas of knowledge. Following up the relevance and implementation of the research outcomes and to assess the practical impact of the research and its usefulness to the stake holders.
- To undertake and carry on research and development activities by establishing, managing, maintaining laboratories, knowledge and skill centers. Support stake holders in conducting quality training under any government, quasi-government, private universities for imparting knowledge and improving skill-set. Supporting professors, teachers and researchers by providing or contributing the funding of research. And Encouraging the academic fraternity by providing or contributing to the awards, prizes, scholarships, grants, sponsorships for their contributory behavior / actions to make the society a better place to live in.
- To authorize any academican or student to undertake study tours, work tours, visits or training programs in India or abroad for the continuance of the technical or other expertise for professional growth.
